Integrity - Service - Excellence

Overview

- D035K Mission
- New DMISA Process Flow
- Purpose of the System Change
- System Change Highlights
- Status
- Next System Change
- Summary

D035K Mission

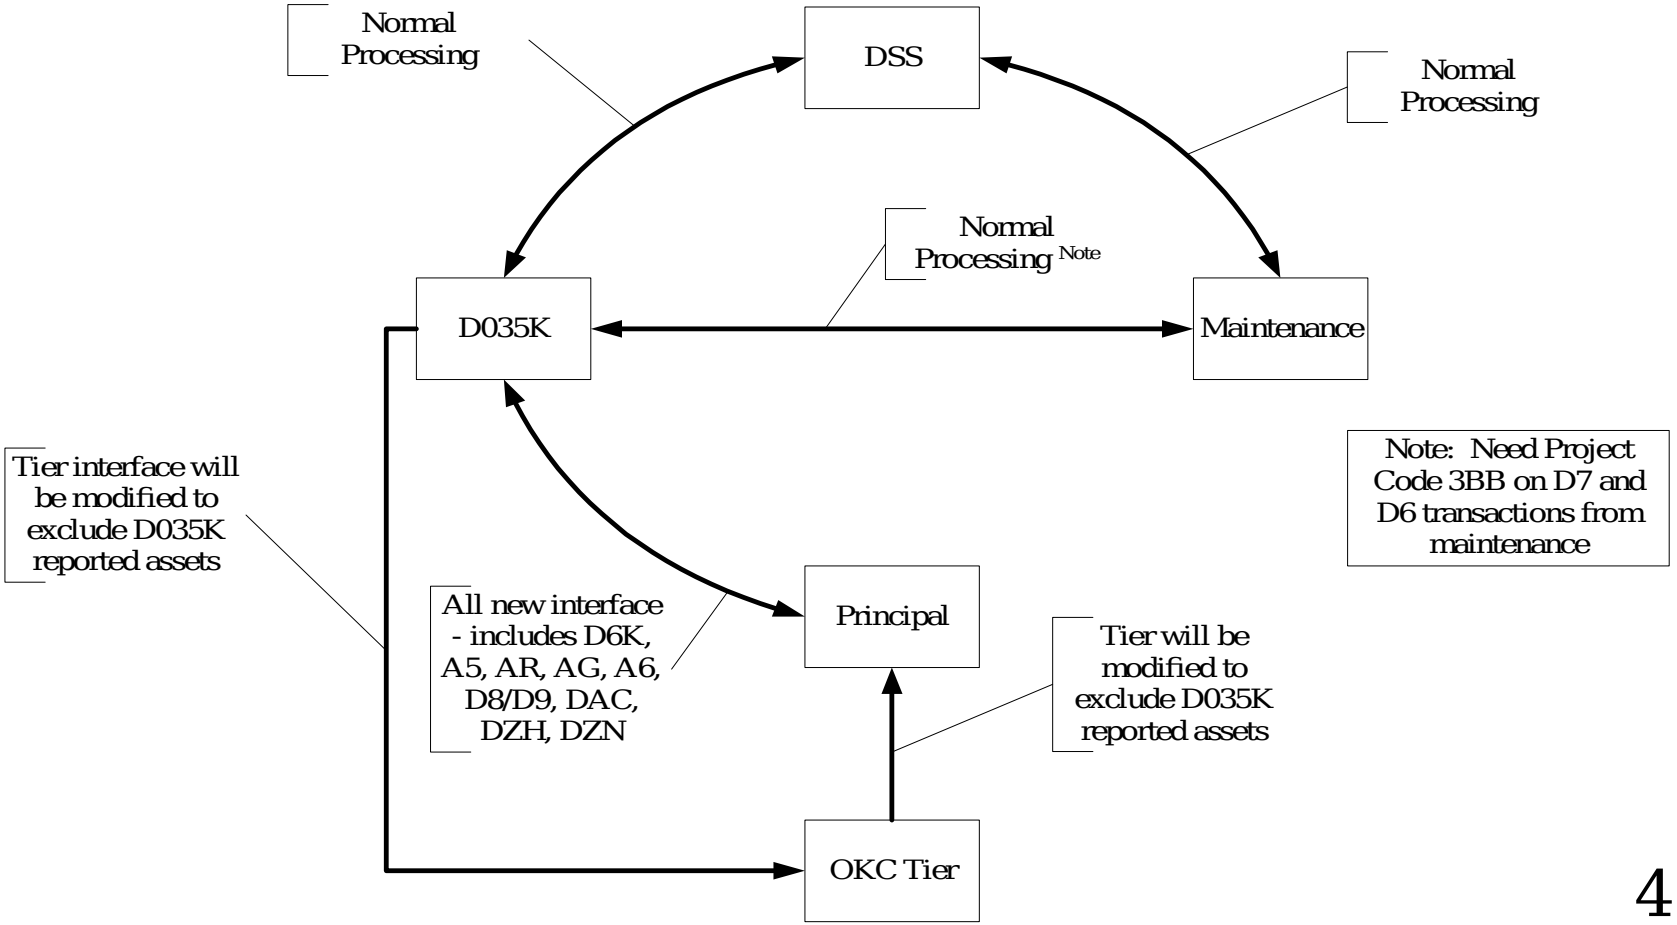
- **Provide retail-level supply support to depot maintenance**
- **Store end items until ready for induction**
- **Store bits and piece parts for use during repair**
- **Order assets as required to support repair**

New DMISA Processes

HQ AFMC/LGRP

6/21/2004

Basic Flowchart of New DMISA Processes



Normal Processing
DSS
Normal Processing
Normal Processing Note
D035K
Maintenance
Tier interface will be modified to exclude D035K reported assets
Note: Need Project Code 3BB on D7 and D6 transactions from maintenance
All new interface - includes D6K, A5, AR, AG, A6, D8/D9, DAC, DZH, DZN
Principal
Tier will be modified to exclude D035K reported assets
OKC Tier

Purpose of System Change

- **Provide end-item asset visibility to Principal**
  - **Does not include**
    - **Items being repaired by a contractor**
    - **Reparable bit and piece parts**
- **Use standard MILS transactions for reporting**
- **Asset balance reconciliation**

System Change Highlights

- **Initial upload of asset balance to Principal**
- **Reporting:**
  - **Receipt of assets into the ALC**
  - **Issue of assets to maintenance**
  - **Turn-in of assets from maintenance**
- **Automated shipment by the Principal**
- **Storage of assets after repair**
- **Automatic shipment of condemned assets to DRMO**

System Change Highlights

- **Process can be turned on by owner (Principal) and by ALC**
  - **Example:**
    - **N32 can be on at Ogden but not at Oklahoma City**
- **Automated asset-reconciliation between D035K and Principal (weekly)**

Status

- System change is in production
  - There are problems but we are working them
- No Service is turned on yet
- Army legacy system test scheduled for August 04
- Navy test delayed – no new time scheduled

Next System Change

- **Still in requirements determination**
- **Develop a way to differentiate between end items and bit and piece parts**
- **Develop a way to handle assets going to contractors for repair**
- **Asset balance reconciliation between DSS and D035K**
- **Screen access to new DMISA database**
- **Automate EOM reporting to Principal**

Next System Change - Issues

- **Funding issues**
  - **How will bit and piece parts be paid for?**
- **Cataloging issues**
  - **Where can we get valid data for the item record?**
  - **D043A changes?**

Summary

- **Complex process**
- **The initial system change although fielded is not quite finished**
  - **Estimate 30-40 days**
- **Long way to go on next change**
  - **Major issues need to be worked**
